

1. A method for preventing carbon tetracloride induced liver damage in mammals, said method comprising the steps of:

administering, to a patient, a formulation comprising processed Morinda

Citrifolia.

5

- 2. The method of claim 1, wherein said Morinda Citrifolia is administered in dosages comprising at least two ounces of processed *Morinda Citrifolia* juice twice daily on an empty stomach for a period of at least two months.
- The method of claim 1, wherein said Morinda Citrifolia is in juice form.
 - 4. The method of claim 1, wherein said Morinda Citrifolia is in solid form.
 - 5. The method of claim 1, wherein said Morinda Citrifolia is in powder form.

- 6. The method of claim 1, wherein
- 7. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 0.1 and 5 percent by weight, said formulation being administered for a period of at least seven days.

8. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 5 and 10 percent by weight, said formulation being administered for a period of at least seven days.

Cont

- 9. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 10 and 15 percent by weight, said formulation being administered for a period of at least seven days.
- The method of claim 1, wherein said formulation comprises said Morinda
 Citrifolia in an amount between about 15 and 20 percent by weight, said formulation being administered for a period of at least seven days.
 - 11. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 20 and 25 percent by weight, said formulation being administered for a period of at least seven days.
 - 12. The method of claim/1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 25 and 30 percent by weight, said formulation being administered for a period of at least seven days.

15

13. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 30 and 35 percent by weight, said formulation being administered for a period of at least seven days.

14. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 35 and 40 percent by weight, said formulation being administered for a period of at least seven days.

- 15. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 40 and 45 percent by weight, said formulation being administered for a period of at least seven days.
- 10 16. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 45 and 50 percent by weight, said formulation being administered for a period of at least seven days.
- 17. The method of claim 1, wherein said formulation comprises said Morinda
 15 Citrifolia in an amount between about 50 and 55 percent by weight, said formulation being administered for a period of at least seven days.
- 18. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 55 and 60 percent by weight, said formulation

 being administered for a period of at least seven days.

19. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 60 and 65 percent by weight, said formulation being administered for a period of at least seven days.

- 20. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 65 and 70 percent by weight, said formulation being administered for a period of at least seven days.
- The method of claim 1, wherein said formulation comprises said Morinda
 Citrifolia in an amount between about 70 and 75 percent by weight, said formulation being administered for a period of at least seven days.
 - 22. The method of claim 1, wherein said formulation comprises said *Morinda*Citrifolia in an amount between about 75 and 80 percent by weight, said formulation being administered for a period of at least seven days.
